**Report to the Legislature  
Assembly Bill 1X, Chapter 4, Statutes of 2001  
Activities and Expenditures Report for Quarter Ended March 31, 2010**

Assembly Bill 1X (Chapter 4, Statutes of 2001), among other things, established Section 27 of the California Water Code, authorized the Department of Water Resources (DWR) to enter into long-term contracts with power generators, created the Power Supply Revenue Bond program and required DWR to make quarterly and annual reports to the Governor and the Legislature regarding California Energy Resources Scheduling Divisions' (CERS) activities.

CERS purchases power under the terms of its existing contracts, all of which were entered into prior to January 1, 2003. The scheduling, dispatch and certain other administrative functions for the existing contracts are managed by the investor owned utilities. CERS continues to have financial and legal responsibility for its contract portfolio and oversees repayment of the outstanding revenue bonds.

As required by Assembly Bill 1X, this report provides historical information with respect to cash receipts, disbursements, bonds outstanding and cash balances for the quarter ended March 31, 2010. There are no unexpected trends, and cash balances at the end of this quarter met or exceeded amounts required by the Trust Indenture for the Power Supply Revenue Bonds. The report also compares CERS' 2010 fiscal year appropriated costs to budget for the quarter ended March 31, 2010, and demonstrates that CERS' expenditures are within budget.
